Key components installed:	16 x Sanyo 240W (HIT-N 240 SE10) 1 x SMA SB4000TL Inverter
Estimated output per annum (kWh):	3296

Workmanship

We guarantee that all of our workmanship will be free from defects for 10 years from the date of commissioning and that all equipment and materials have been installed in accordance with manufacturer specifications. In the first 10 years after installation we will correct free of charge any fault arising in the system as a result of defective workmanship by Spirit Solar Ltd.

Equipment and Materials

Where there is a need to claim on a manufacturer's warranty within the first 5 years we will make the claim from the manufacturer on your behalf and we will replace the faulty equipment free of charge. PV panels come with either a 5 or 10 year defects guarantee and a 25 year performance guarantee, guaranteeing that after 25 years they will perform at a minimum of 80% of their initial performance rating. SMA Inverters come with a 10 year guarantee, extendible at additional cost. Solaredge inverters are guaranteed for 12 years. Solaredge power-optimizers are guaranteed for 25 years. All other materials used in a PV system are covered by the respective manufacturer's two year warranty, unless otherwise stated.

Microgeneration Certification Scheme

Your solar photovoltaic system has been installed in line with all MCS guidelines and requirements.
